

ASTLEY CLARKE

How to Size a Photograph for Your Locket

Please Note:

- Before printing, the page scaling option must be set to 'none' in your print settings.
- Ensure that you are printing on standard A4 sized paper (210 x 297mm).
- Measuring the diameter of a grey circle can confirm if the template has been printed correctly. Please do this before following the subsequent steps.

Step 1:

- Find your locket from the options below.

Step 2:

- Print your photo to the size that corresponds with your locket above.

Step 3:

- Cut out the required grey circle from the printed template page.

Step 4:

- Place the grey circle on top of your photo in the desired position

Step 5:

- Trace the circle onto your photo then cut along the traced line. Your photo will fit snugly within the metal lip of the locket's interior. Your photograph is now ready to be concealed within your new locket.
